Feb 12, 2021 - Disable or remove all the extensions then turn off your browser. After disabling the add-ons and any extensions you have, try to see if the problem persists. Internal issues with the Google Chrome browser, such as broken extensions, can prevent you from uninstalling the browser. Try out these solutions and completely uninstall the browser. Sep 09, 2021 - Step 1 Open a new tab on the Google Chrome browser and type Chrome://flags in the address bar. Step 2 You will be shown a list of Chrome flags. Type Smooth Scrolling in the search bar and click on the dropdown menu in front. Step 3 Select Disabled from the dropdown options and click the Relaunch button at the bottom right-hand corner of the screen.
