So here it is the third person shooter franchise BIA from gameloft has arrived. Brothers in Arms 3 Sons of war MOD APK Gameloft's new brothers-in-arms game there hasn't been a brother-in-arms game and quite some time so this is a rather exciting and things have changed quite a bit since BIA 2 came. obviously it looks better. its third person very cover-based and it is free to play which I'm sure will go into very soon so the games mostly about getting into cover behind sand bags and boxes and it's a tarpeaulin like this and shooting Nazis. Since its an online freemium game you should have Unlimited Money MOD so here i am uploading Brothers in Arms 3 BIA3 MOD APK Hack for Unlimited Money coins VIP Points and PVP as well as free Rewards.MOD works well for me I kind of play a bit more like resident evil 4 and what could be better than resident evil 4 right. the game looks a little bit cartoony almost it's got it is quite colorful and the character models a little bit sort of bizarre looking but generally it is a proper brothers-in-arms more game you know you get there the very take themselves very seriously cutscenes now. you know you've got your brothers and you've gotta work together. mission rewards in the form of dog tags which we have ripped off our enemies next we've got a new brother take up all looking to him in a few minutes. we can upgrade our gun and fire rate stability reload speed clip size whenever you upgrade something using the dogtags you've gotta wait a certain that time.Your premium currency that you have to spend real cash on you got events and you've got this VIP mode where you can pay for two days seven days or 30 days of special access so if you have the 30 day one you can no longer bleed so that's pretty cool. you can also buy upgrades for your brothers and you can buy grenades. good game but filled with stuff you can buy that slightly and puts me off it.
